WORK EXPERIENCES

- **DevOps Engineer**, Sharif Hamrah Pajoohan Co. *July 2025 - Till Now*
 - Deployed and maintained self-hosted infrastructure services including Nexus, Jenkins, Docker, GitLab (CLI), Vault, SonarQube, and MinIO on Linux servers.
 - Designed and implemented a complete CI/CD pipeline using Jenkins and Nexus, with MinIO as the artifact and object storage backend.
 - Automated recurring operational tasks such as service provisioning, configuration, and troubleshooting using Bash and Nginx.
 - Occasionally contributed front-end features and fixes alongside infrastructure work.
 - Built and containerized front-end and back-end applications using Dockerfiles, then deployed and served them on Linux servers.
- **IoT/Server Engineer & Front-End Developer**, [SID](#) *April 2024 - April 2025*
 - Designed and developed the UI/UX for the customer app cloud.potovending.ir, improving accessibility and user experience.
 - Built a user dashboard for monitoring income, managing vending machine settings, and viewing detailed activity logs.
 - Implemented remote control features for vending machines, enabling commands like board reset, POS monitor control, and hardware adjustments.
 - Configured and optimized Raspberry Pi 4, including GUI automation with PyAutoGUI, X11 setup, and Wayfire customization for performance improvements.
 - Developed CI/CD pipelines for deploying Raspberry Pi-based applications, integrated APIs, and optimized database queries for better performance.
- **Full-Stack Developer (.NET & SQL)**, Fotros Company *December 2022 - February 2023*
 - Developed server-side applications and APIs using C# and the .NET Framework.
 - Implemented business logic and data processing algorithms to support various features and functionalities.
 - Designed and optimized SQL databases using Entity Framework and other ORM tools, including LINQ for querying databases in a more object-oriented manner.
 - Integrated third-party APIs and services to extend the functionality of web applications.
 - Implemented security measures such as authentication and authorization to protect sensitive data and ensure compliance with security standards.
 - Leveraged big data concepts in front-end development to create visually stunning and interactive user interfaces.

- **Front-End Developer, Alaa Company** October 2021 - November 2022
 Vue.js with the following frameworks:
 - ◊ Quasar: Utilized Quasar frameworks as the foundation of projects. Developed the map page (*site map page*) and another example, the *Ticketing panel*.
 - ◊ Vuetify: Created components for an Online test system designed for University entrance exams (*Online test system*).
 - ◊ Nuxt (Familiar): Developed a panel for Alaa's sponsor institution.
- **CS Association at Kharazmi University,** 2020 - 2022
 Worked on Machine Learning, and Deep Learning in sessions named *Khu Cs Study Circles*.
 - ◊ Organized an event named *Khu Apply Talks*.
 - ◊ Conducted preparation courses for *ICPC competitions* using C++.

TECHNICAL SKILLS

- **DevOps & CI/CD**
 Jenkins, GitLab CI/CD, pipeline design, deployment automation
- **Linux & Server Administration**
 Ubuntu Linux, Bash, Shell scripting, systemd, SSH, Raspberry Pi OS
- **Security & Code Quality**
 HashiCorp Vault, SonarQube
- **Databases & Backend**
 PostgreSQL, MySQL, SQL, C#, .NET, Entity Framework, LINQ
- **Infrastructure Operations**
 Service provisioning, configuration, deployment, monitoring, troubleshooting
- **Containers & Repositories**
 Docker, Nexus Repository, MinIO
- **Web & Networking**
 Nginx, HTTP/HTTPS, REST APIs, reverse proxy configuration
- **Version Control**
 Git, GitLab, GitHub
- **Front-End Development**
 JavaScript, HTML5, CSS3, SCSS, Vue.js, Quasar, Vuetify, Bootstrap, Nuxt
- **Automation & Scripting**
 Bash, shell automation, JavaScript, Python
 GUI automation (PyAutoGUI)

EDUCATION

- **Kharazmi University**, Tehran, Iran
 B.Sc., Computer Science, 2018 - 2023
 GPA: **3.16/4**
 - Data Structures: 4/4
 - Software engineering: 4/4
 - Databases and data mining: 4/4
 - Computational Intelligence: 4/4
 - Design and Analysis of Algorithms: 4/4
 - Linear Algebra: 4/4
- **Mofid High School**, Tehran, Iran
 High School Diploma in Mathematics and Physics, 2014 - 2018
 GPA: **3.76/4**

COURSES

- Docker & Kubernetes: The Practical Guide – Udemy
- Jenkins: From Zero to Hero – Udemy
- Linux Administration & Shell Scripting for DevOps – Udemy
- Udemy - Vue - The Complete Guide (w Router, Vuex, Composition API) 2020-12
- Udemy - MAX - JavaScript - The Complete Guide 2021 (Beginner + Advanced)

LANGUAGE SKILLS

- **English:** Limited Working Proficiency.
 ◊ **Academic IELTS: Currently in progress**
Reading: 7/9, Listening: 7/9, Speaking: 5/9, Writing: 6/9
- **Persian (Farsi):** Native Proficiency.
